

RYAN MAR

(408) 234-6190 | ryanmar05.business@gmail.com | linkedin.com/in/marryan | github.com/seika5

EDUCATION

University of Southern California | B.S. Computer Science

Relevant Coursework: Data Structures and Algorithms, Linear Algebra, Probability and Statistics

EXPERIENCE

Jane Street

TDO Engineer Intern

New York, NY

May 2026 – August 2026

- Trade desk operations engineer intern

Docflow Labs | *AWS, Fly.io, Playwright, PostgreSQL, React, Retool, Temporal, TypeScript*

Los Angeles, CA

Software Engineer Intern

June 2025 – August 2025

- Developed a **HIPAA-compliant** AI workflow platform enabling **95%** reduction in patient health document processing overhead
- Designed and developed encryption infrastructure and system using **AWS** (Bedrock, EC2, and Lambda), **Temporal**, and **Fly.io**
- Implemented backend services using **TypeScript**, **Prisma**, and **PostgreSQL** to support scalable and audit-friendly data handling

Department of Homeland Security | *Bash, Docker, Jira, YAML*

Washington D.C.

Software Engineer Intern

June 2024 – August 2024

- Collaborated with an **Agile SecDevOps** team developing a **CI/CD** project template for internal teams to ensure project security
- Attained a **37%** reduction in setup time by consolidating **SAST** scans into a flexible **Bash** script for GitLab pipelines
- Collaborated through pair programming, writing and updating **YAML** and **Bash** configurations across multiple pipeline stages, containerizing the pipeline using **Docker**

EXTRACURRICULARS

Association for Computing Machinery | *Figma, Git*

Merced, CA

SIG Software Engineering Lead

October 2024 – May 2025

- Formulated and led practical software engineering workshops, including the use and history of **Git**, **GitHub**, and **Agile**
- Engaged in outreach and diversity initiatives such as the Society of Women Engineers club's annual EYH conference

Google Developer Group | *AWS, Jira, MySQL*

Merced, CA

Vice President

January 2025 – May 2025

- Facilitated **6** project groups with mentorship, recruitment, and funding, reducing ramp-up time by **33%**
- Organized large social and informational events for **100+** students, and bolstered interdisciplinary outreach

Project Lead

September 2024 – December 2024

- Recruited **49** student developers from **6** universities; and led **3** sub-team leads for Quant, Machine learning, and Full-stack
- Designed **end-to-end system architecture** with sequence diagrams, use cases, and database schema to support the MVP
- Deployed frontend, AI model, database, and data **ETL** pipeline using **AWS** (EC2, Lambda, RDS, and S3)

HackMerced X | *1st place - 2 awards - \$1,180 awarded*

March 2025

HackMerced IX | *2nd place - 2 awards - \$3,000 awarded*

March 2024

PROJECTS

Relay | *DigitalOcean, PostgreSQL, Next.js*

March 2025 – Present

- Built a hyper-private E2EE messaging and voice/video system deployed on a **DigitalOcean** Droplet
- Created web and iOS app with **Next.js**, **Tailwind CSS**, **Capacitor**, and backend with **Node.js**, **Express**, and **Prisma**
- Implemented **WebRTC** voice/video with **Socket.io** signaling and STUN for calls across NATs

MooGuard | *MongoDB, Next.js, TensorFlow*

March 2025

- **1st place** HackMerced X and Auth0 award
- Built an **IoT** digital livestock tagging system using a **TensorFlow** computer vision model on a Google Coral Dev Board
- Sends live data to **MongoDB** to be processed on **Next.js** app secured by **Auth0** API implementation

Crescent Novels | *AWS, Django*

June 2020 – June 2023

- Developed full-stack platform for users to write and read novels using **Django** and deployed using **AWS** (EC2, Route 53, and S3)
- Grew website to **500+** active users through feature enhancements, active user engagement, and community events

Certifications & Technical Skills

AWS Certified Cloud Practitioner

May 2025

Languages: Bash, C, C++, CSS, HTML, Java, JavaScript, Python, SQL, TypeScript, and YAML

Frameworks: Django, Express, Next.js, Node.js, PyTorch, React, Spring.js, and Vue.js

Developer Tools: AWS, Azure, Docker, Firebase, GCP, Git, Kubernetes, MongoDB, NumPy, Pandas, Postman, and Stripe

Interests: Cafe Hopping, Cloud Computing, Karaoke, Photography, System Architecture and Design
